**The Cerulean's Secret** Dennis Meredith  
**Somebody has stolen the most beautiful cat in history!**

It's 2050, and the Cerulean cat, with its **mesmerizing** iridescent blue fur, is the ultimate genomic engineering triumph of the high-flying company, Animata.

Animata reaps massive profits creating and selling a marvelous menagerie of animals--including exotic crosses like cogs, dats, snurtles, alliphants, hamakeets, and feather boas. Its ultra-rich clients, however, clamor for the **really spectacular specimens**--dragons, unicorns. . . and now the Cerulean. The stunning cat had promised to bring billions of dollars from a corporation, a private collector, or an exhibitor.

**Swept up in the theft** is naïve young Timothy Boatright, a wanna-be writer and New York cabbie. He inadvertently picks up the thief and the nabbed Cerulean. The cops suspect he's a partner in the crime. To prove his innocence and save the cat, he tracks it down and steals it back. He ends up accused not only of catnapping but murder--fleeing the police, Animata thugs, a greedy drug lord. . . and Big Nasties! Somebody has set these 300-pound genetically engineered assassin-animals--with their three-inch fangs, razor claws, and night vision--on Tim's trail.

Tim realizes that the Cerulean holds some **explosive mystery** he must solve to survive and save the cat. He must also save his friends held for ransom--the middle-aged, cat-loving former spy Callie Lawrence and her headstrong daughter Lulu, with whom Tim has fallen madly in love.

***The Cerulean's Secret* is a fast-paced thriller that projects today's amazing genomic technology into a future of incredible biological manipulation.**
