Frog princes, VW buses, and big bad wolves—these are the sorts of subjects that Heather Ross depicts on the fabrics she designs, which the sewing and quilting communities feverishly collect (with many fabrics going for huge sums on eBay once they sell out at traditional retail outlets). In *Heather Ross Prints*, a book-and-DVD package, Ross shares reproducible artwork for more than 50 of her most popular prints. She provides step-by-step instructions for 20 craft projects using the prints on the DVD—everything from sea turtle stationery to a shower curtain covered with swirling mermaids. Crafters can use the artwork on the DVD as they wish, printing on fabric, paper, or whatever surface they choose. Plus, Ross teaches her process for designing fabric using Photoshop—a boon to anyone who has ever dreamed of following in her footsteps.
