Geeks, Mush Heads and the IT Revolution: How SRA International Achieved Success Over Three Decades Ernst Volgenau

SRA International is an information technology company of nearly \$2 billion in revenue which emanated from founder Ernst Volgenau's experience as a Pentagon "Whiz Kid" and early work developing large military computer systems. The book chronicles the indefatigable efforts of the people at SRA who created new technologies to solve some of government's most complex problems. Through their stories, Volgenau shows the paths SRA took to become a publicly traded firm and how its core values—honesty and service—guided it to business success.
