**Thinking Kids'™ Math Analogies, Grade 3 (Thinking Kids (Carson-Dellosa))** Leigh Morrison Cox

Take a creative approach to teaching math and improve students' critical-thinking skills using Thinking Kids'™ Math Analogies for grade 3. This 64-page book covers the NCTM strands: Number and Operations, Algebra, Geometry, Measurement, and Data Analysis and Probability. The activities cover each strand with three levels of difficulty to allow for differentiated instruction. This book includes more than 250 analogies, reproducible pages, an answer key, and a skills matrix. It aligns with state, national, and Canadian provincial standards.
