Auto Brakes Technology Chris Johanson, Martin Stockel

Auto Brakes explains the theory, operation, diagnosis, and service of modern brake systems. Coverage includes the latest developments in the area of brakes technology, including anti-lock brake systems (ABS) and traction control systems (TCS). This text can be used to learn brake system theory and service for ASE test preparation. Content is correlated to the NATEF Task List.

The Workbook is organized to follow the textbook on a chapter-by-chapter basis, providing questions to help the student review the material presented in the chapter. This supplement is a consumable resource, designed with perforated pages so that a given chapter can be removed and turned in for grading or checking.
