In this, their first book, Maria and Adam give an insight into the world of Retrouvius and the interiors they create. The book goes behind the salvage scenes, from the demolition site to the warehouse to the process of designing with reclaimed materials. Charted over twelve locations, ranging from a 17th-century priory to a converted barn to a 1970s high-rise apartment, Reclaiming Style shows how, how, in clever hands, what looks like trash can be transformed into modern-day interiors treasure. The company's unique style goes far beyond a mere commitment to salvage and sustainable design and offers an inspiring new vision for sophisticated, thoughtfully constructed living spaces.
