## How We Move Around (What Do You Know About? Books) Nuria Roca

Attractive color illustrations and easy-to-follow text combine to present factual information that younger boys and girls will readily absorb and understand. *How We Move Around* is one in a series of four entertaining *What Do You Know About?* books, for very young children. It describes the different ways of movement--for instance, people who walk on two legs, animals that walk on four, spiders that walk on eight, frogs that leap, and butterflies that glide through the air. Four pages presenting activities for children appear at the back of the book, followed by a two-page section for parents, with tips on explaining the subject in more detail.
