Recommendations On The Transport Of Dangerous Goods: Manual Of Test And Criteria

This publication presents a compilation of the various tests and criteria that enable competent authorities to classify explosive substances and articles. It focuses on the classification procedures, test methods and criteria relating to explosives, self-reacting substances, and organic peroxides. They aim at ensuring a high level of safety by preventing accidents to persons and property and damage to the environment during transport and, providing at the same time, a uniform regulatory framework which can be applied worldwide for national or international transport by any mode.
