Buckminster Fuller: Anthology for the New Millennium

Thomas T. K. Zung, Buckminster Fuller

Buckminster Fuller: Anthology for the New Millennium Thomas T. K. Zung, Buckminster Fuller
Buckminster Fuller, inventor, thinker and architect, was one of the best known Americans of the twentieth century. Often compared to Leonardo da Vinci and called "the planet's friendly genius," he was the inventor of the geodesic dome, the man who coined the term "spaceship earth," and an educator without parallel. Yet, most of his books are out of print today.

To remedy this situation, his longtime friend and architectural partner, Thomas Zung, has compiled a Bucky Fuller reader. This anthology consists of chapters selected from twenty of Bucky's many books, each with a new Introduction by such notables as Arthur C. Clarke, Steve Forbes, Calvin Tomkins, Dr. Martin Meyerson, Sir Harold W. Kroto, Arthur L. Loeb, E. J. Applewhite, and others.

Altogether, this book provides an overview of a remarkable intellectual career and the best possible introduction to the man and his thought. Bucky Fuller was one of the most original thinkers and builders that America has ever produced, and this book makes his work available to a new generation at the beginning of a new millennium.
