Aerosol Sampling: Science and Practice

James H. Vincent

Aerosol Sampling: Science and Practice James H. Vincent

Deals with aerosol sampling as an applied scientific subject, linking it to the needs of practical sampling in the real world. Provides the scientific framework necessary to appreciate the processes relevant to aerosol sampling. Discusses experimental methods that have been employed in aerosol sampler studies and identifies parameters by which sampler performance can be evaluated. Also considers sampling in relation to health effects, and how practical sampling methodology has evolved to match such criteria.
