Learn to play the sax the easy way is a book designed for new saxophone players to follow an unconventional approach to sax playing. When the newcomer finds reading music hard work, this book will take out the frustration for a while having fun between lessons. We have all heard of painting by numbers, this method is playing by colours. Simply follow the colour code, if the key/s is coloured press it and if the key/s is blacked out, release it. This system has been tried on numerous people who have never played any instrument let alone the sax, once they had got rid of most of the squeaks, which any newcomer will have, they could follow the pattern very easily and even play a tune. The book is all about having fun. If you can't play the sax yet you will after reading this.
