Landfill Leachate Treatment

Tonni Kurniawan, Mika Sillanpaa

Landfill Leachate Treatment Tonni Kurniawan, Mika Sillanpaa

Landfill Leachate Treatment reviews the most up-to-date research on solid waste management in Asia in recent years, the mechanisms of landfill leachate generation and the technical feasibility of various individual and/or combined techniques that have been extensively employed worldwide for the treatment of landfill leachate. In addition, it presents original accounts of various techniques including physico-chemical treatments, advanced oxidation processes (AOP), and biological treatments for leachate treatment. Concludes with a summary of the most prominent treatment performances of each technique for landfill leachate. Includes a literature survey of 644 studies (1963-2008) in landfill leachate treatment. Includes case reports on Asian countries and few others. Intended for environmental, chemical, civil & mining engineers working on solid waste treatment.
