## **Translation Studies: Theories and Applications** Sunil Sawant

Over the years, Translation Studies has developed into an interdisciplinary area of research, taking in its stride Comparative Literature, Applied Linguistics and Culture Studies. *Translation Studies: Theories and Applications* offers a variety of theoretical approaches and a number of their applications.

This book contains research contributions made by David Bellos from Princeton University (USA) as well as such Indian scholars as Sunil Sawant, Sachin Ketkar, Amar Singh, Rajiv Ranjan Dwivedi, Meena Edith Keller, Laxmi Shanker and Anubha, Satyendra Singh, B.O. Satyanarayana Reddy, B.N. Gaikwad, Mallikarjun Patil, Vandana Pathak, Neeta Modi, Sarita Mane, A.K. Farakate, J. Samuel Kirubahar and Ms. M. Muktha Manoj, A.M. Sarwade, and Manoj Gujar. It further includes two articles written by Shirish Chindhade and Aparna Tiwari which relate a few experiences of these authors while they were engaged in the activity of translation.

The book throws light on various issues related to Translation Studies including strategies used to represent the foreignness of the foreign in the receiving language; bridging the gap between the linguistic sciences oriented approaches and the those that emphasize the target culture system; exploring the challenges involved in translating the texts; the kinds, problems, solutions and latest trends in translation; the spilling over of languages and cultures in translation; and the nature of compromises that the translator has to make.

We hope that readers and researchers will find this book intellectually stimulating and practically useful.
