Cosmosis® Crystal Alchemy involves three transformational stages namely - - - - - 1. Know thyself: the preparatory stage when the Alchemist must confront unknown, chaotic material within themselves, to encounter the unilluminated aspects within and enlighten them. - - - - - 2. The transcension of duality within oneself: By imposing transcendent norms upon seemingly opposing polarities, one learns to master the nature of reality as simply an infinite scale of vibrational expression from infinity to unity. - - - - - 3. The systematic investigation into one's own universal and cosmic origins, and the subsequent revelation of Source. - - - - - In this book I will share with you an ancient alchemical understanding and view of the world, which will provide you with a lens into new knowing, new being and new awakenings. It is written in the style of the ancient initiate language, in that each page and paragraph is a collection of alchemical keys, which when pondered upon in the correct sequence shall initiate and activate the ancient knowing. If you but choose.
