An Autobiography of Buffalo Bill Colonel W. F. Cody

Here is the incredible life story of the world-famous Great Plains frontiersman William "Buffalo Bill" Cody: scout, buffalo hunter, pony express rider, bullwhacker, stagecoach driver, and showman. Those are just a few of the titles held by this amazing man, who faced death countless times while guiding the transition between the old and new American West.

Excerpt: ... "I want to express the hope that the dealings of this Government of ours with the Indians will always be just and fair. They were the inheritors of the land that we live in. They were not capable of developing it, or of really appreciating its possibilities, but they owned it when the White Man came, and the White Man took it away from them. It was natural that they should resist. It was natural that they employed the only means of warfare known to them against those whom they regarded as usurpers. It was our business, as scouts, to be continually on the warpath against them when they committed depredations. But no scout ever hated the Indians in general. "There have been times when the Government policy toward the Indians has been unwise and unjust. That time, I trust, has passed forever. There are still many thousand Indians in the country, most of them engaged in agricultural pursuits. Indian blood has added a certain rugged strength to the characters of many of our Western citizens. At least two United States Senators are part Indian, and proud of it. "The Indian makes a good citizen, a good farmer, a good soldier. He is a real American, and all those of us who have come to share with him the great land that was his heritage should do their share toward seeing that he is dealt with justly and fairly, and that his rights and liberties are never infringed by the scheming politician or the short-sighted administration of law."
