In an age of casual hook-ups, can love survive the test of time? "Juniper Smoke will consume you, take your time with reading it because it is so worth it." (Schmexy Girls Blog) "Sadia's level of talent is tops of the romance game right now." (Pretty Little Book Blog) "Much more than a simple love story. It's a saga." (Annette Abernathy's Blog) "I loved this story. This is a must read book!" (Heather - Kinky Kittens Book Blog) Juniper and Kyle meet cute when she is dangling forty feet from a museum scaffolding, hanging on for dear life. Juniper is a sassy, nerdy curator at the History Museum of Ann Arbor. Her life has been one big sacrifice for others. Work. Home. Repeat. Raised by her mother to hate men, she worries she'll die a frigid scholar in a musty house with an army of cats and a lake of books. Kyle Paxton is a handsome, intense and intimidating inventor of micro-cameras from San Francisco. To curb the dark memories of his ex-girlfriend (who still haunts him), he schedules dating and work with robotic precision. Not looking for love, he only hooks up with Amazonian models. When he joins the museum board, Juniper falls for him. She wants him, but knows it's going to be as hard as catching the ocean in a teacup. Juniper becomes Kyle's obsession, but the tragic secrets of his past cloud his feelings. Juniper soon knocks Kyle's world off its axis and their galaxies collide in this very unfairy tale. But can they overcome their differences and stop a hateful and vindictive person from tearing them apart? Juniper Smoke is a smoking hot read with fun twists, dark secrets and edge-of-your-seat drama. Nothing is as it seems and no one behaves as you would expect.
