## Qualitative Inquiry and the Politics of Research (International Congress of Qualitative Inquiry Series)

This volume of plenary addresses and other key presentations from the 2014 International Congress of Qualitative Inquiry highlights the politics of research in the neoliberal state and the role of qualitative researchers in that debate. Marginalized by an increasingly top-down, assessment-driven university system, the fifteen contributors from a variety of disciplines show the responses of qualitative scholars in their research, writing, advocacy, and teaching, both inside the university and in the broader society. Sponsored by the International Congress of Qualitative Inquiry.
