Satellite Communications Systems Engineering: Atmospheric Effects, Satellite Link Design and System Performance

Louis J. Ippolito Jr.

Satellite Communications Systems Engineering: Atmospheric Effects, Satellite Link Design and System Performance Louis J. Ippolito Jr.

The first edition of *Satellite Communications Systems Engineering* (Wiley 2008) was written for those concerned with the design and performance of satellite communications systems employed in fixed point to point, broadcasting, mobile, radio navigation, data relay, computer communications, and related satellite based applications. This welcome Second Edition continues the basic premise and enhances the publication with the latest updated information and new technologies developed since the publication of the first edition. The book is based on graduate level satellite communications course material and has served as the primary text for electrical engineering Masters and Doctoral level courses in satellite communications and related areas. Introductory to advanced engineering level students in electrical, communications and wireless network courses, and electrical engineers, communications engineers, systems engineers, and wireless network engineers looking for a refresher will find this essential text invaluable.

From reader reviews:

Judy Chisolm:

This Satellite Communications Systems Engineering: Atmospheric Effects, Satellite Link Design and System Performance book is not really ordinary book, you have it then the world is in your hands. The benefit you receive by reading this book is usually information inside this book incredible fresh, you will get info which is getting deeper a person read a lot of information you will get. This Satellite Communications Systems Engineering: Atmospheric Effects, Satellite Link Design and System Performance without we understand teach the one who studying it become critical in pondering and analyzing. Don't always be worry Satellite Communications Systems Engineering: Atmospheric Effects, Satellite Link Design and System Performance can bring whenever you are and not make your carrier space or bookshelves' turn out to be full because you can have it in the lovely laptop even cellphone. This Satellite Communications Systems Engineering: Atmospheric Effects, Satellite Link Design and System Performance having very good arrangement in word along with layout, so you will not truly feel uninterested in reading.

Brian Ramos:

People live in this new morning of lifestyle always make an effort to and must have the time or they will get wide range of stress from both everyday life and work. So , if we ask do people have spare time, we will say absolutely sure. People is human not only a robot. Then we inquire again, what kind of activity do you have when the spare time coming to a person of course your answer will certainly unlimited right. Then do you try this one, reading books. It can be your alternative with spending your spare time, the particular book you have read will be Satellite Communications Systems Engineering: Atmospheric Effects, Satellite Link Design and System Performance.

Curtis Tyson:

Many people spending their period by playing outside having friends, fun activity using family or just watching TV the whole day. You can have new activity to invest your whole day by looking at a book. Ugh, think reading a book really can hard because you have to accept the book everywhere? It alright you can have the e-book, bringing everywhere you want in your Smart phone. Like Satellite Communications Systems Engineering: Atmospheric Effects, Satellite Link Design and System Performance which is getting the e-book version. So , try out this book? Let's notice.

Joan Toon:

Reading a guide make you to get more knowledge from this. You can take knowledge and information coming from a book. Book is created or printed or created from each source that filled update of news. With this modern era like now, many ways to get information are available for an individual. From media social similar to newspaper, magazines, science book, encyclopedia, reference book, story and comic. You can add your knowledge by that book. Are you hip to spend your spare time to open your book? Or just searching for

the Satellite Communications Systems Engineering: Atmospheric Effects, Satellite Link Design and System Performance when you necessary it?
